HOW IT WORKS

PAY LEG

Each individual's sole
responsibility to build.

OVERFLOW LEG

The side of business
connected to your
sponsor. Unlocks tier
advancement.

- ▶ Only **paid** hash creates points: **100 MH/s = 1 point**
- ▶ Paid on matched points from both legs
- ▶ Paid at the highest tier you qualify for each week
- ▶ **No sticky points.** Each leg carries at most 9 minus the points you could match, paid or not. The rest washes.
- ▶ Matched 9+, or not yet eligible for commissions? Nothing carries.

MATCHING EXAMPLE

Pay leg **6** Overflow **10**

Paid **6 / 6 = \$2,000** (Tier 2)

Carry limit: $9 - 6 = 3$ per leg. Overflow keeps 3, 1 washes. Pay leg starts at 0.

100 MH/s = Full

Buy up to 100 MH/s and you're
on the Full Plan (page 1).

HOW IT WORKS

- ▶ Team points count the same for everyone: **100 MH/s = 1 point**, so 10 MH/s = 0.1
- ▶ Three tiers, the same for every member at 10-90 MH/s
- ▶ Paid at the highest tier you qualify for each week
- ▶ **No sticky points**. Each leg carries at most 0.9 minus the points you could match, paid or not. The rest washes. Not yet eligible? Nothing carries.
- ▶ Bonus hash never counts toward your plan

MATCHING EXAMPLE

Pay leg **0.7** Overflow **1.5**

Paid **0.6 / 0.6 = \$200** (Tier 2)

Carry limit: $0.9 - 0.6 = 0.3$ per leg. Pay leg keeps 0.1,
overflow keeps 0.3 and 0.6 washes.

FRACTIONAL PAYOUT STRUCTURE

Every member at 10-90 MH/s paid

TIER	MATCH	PAYOUT	OVERFLOW DIRECTS (10 MH/s+)
1	0.3 / 0.3	\$100	1
2	0.6 / 0.6	\$200	2
3	0.9 / 0.9	\$300	3

The most you can match in a week is **0.9 / 0.9**; anything above that washes. No Team Unlock on this plan. All payouts share the same pool with a **49% hard cap** on weekly revenue. Buy up to 100 MH/s to move to the Full Plan's 12 tiers (page 1).
